

Fall Outdoor Scavenger Hunt!

Checklist

☐ Item #1

An Orange Maple Leaf

The most well-known maple tree (the sugar maple) is responsible for the delicious maple syrup we love in the fall. They're located primarily in Ontario, Quebec, and the Maritime provinces.

☐ Item #2

A Yellow Birch Leaf

Birch trees are famous for their white bark and have leaves that turn yellow in the fall.

☐ Item #3

A yellow-ish-brown Elm leaf

Elm trees are known for their size and ability to withstand cold temperatures!

☐ Item #4

A reddish-brown Oak Leaf

Oaks are a very strong tree known for their resistance to insect and fungal infestations

☐ Item #5

A yellow Ash Leaf

Ash trees are amongst the first deciduous trees to shed their leaves in fall!

☐ Item #6

A yellow poplar leaf

Poplar trees are great at reducing soil erosion and desertification
